Apprenticeship funding/Levy

The way Apprenticeships are funded is changing, here's what you need to know:

The Government wants to encourage Apprentice-based learning and in recognition of this are introducing changes to the way apprenticeships are funded. These changes come into effect on April 6th 2017.
The Apprenticeship levy is 0.5% of a company payroll, paid by all employers with a payroll in excess of £3 million per annum.
You can contact us to discuss the levy and how the changes will affect your business.
